

RISHABH VERMA

+91-8881343585 verma.rishabh924@gmail.com Rishabh_Verma rishabh-060 portfolio

Noida, India

SKILLS

- Languages: JavaScript (ES6+), TypeScript (Basic), SQL
- Frontend: React.js, Redux Toolkit, React Router, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs, JWT Authentication
- Database: Microsoft SQL Server & MongoDB
- Tools: Git, GitHub, Postman, Redis & RabbitMQ

EXPERIENCE

Trayistats AI Technology

Software Developer

10/2025 – Present | Noida, Uttar Pradesh

As a Software Developer at **@Trayistats AI Technology**, I contribute to building and enhancing scalable software solutions. Key responsibilities include:

- Resolved 100+ production issues across React and Node applications, improving platform stability.
- Developed and deployed 10+ new features used by enterprise survey clients.
- Designed REST APIs using Node.js and MSSQL for participant management.
- Optimized SQL queries reducing report generation time by 35%.
- Integrated RabbitMQ-based asynchronous report generation improving export performance.

Software Developer Intern

07/2025 – 09/2025 | Noida, Uttar Pradesh

During my internship at **@Trayistats AI Technology**, I actively contributed to live projects and gained hands-on experience in software development:

- Built REST APIs in Express.js.
- Fixed 30+ frontend/backend bugs.
- Worked on React components used in production.
- Improved SQL queries and API response times.
- Participated in code reviews.

EDUCATION

Master's of Computer Applications, Shri Ramswaroop Memorial University

04/2023 – 04/2025 | Barabanki

Bachelor of Science (Computer Applications), Bramhanand PG College

08/2020 – 06/2023 | Kanpur

SUMMARY

Software Developer with 1+ year of experience building scalable enterprise market research platforms using React.js, Node.js, Express.js, MongoDB, and Microsoft SQL Server (MSSQL). Proficient in developing RESTful APIs, implementing secure authentication and authorization, optimizing database performance, debugging production issues, and delivering scalable features in Agile environments. Passionate about building clean, maintainable, and high-performance applications that solve real-world business problems.

PROJECT

Enterprise Market Research Platform (Professional Experience)

07/2025 – Present

- Developed and enhanced production-grade modules for an enterprise market research platform.
- Designed and implemented REST APIs using Node.js and Microsoft SQL Server.
- Debugged and resolved production issues to improve platform reliability and performance.
- Optimized complex SQL queries, stored procedures, and reporting workflows.
- Collaborated with cross-functional teams to deliver new features following Agile development practices.
- Worked with React.js, Node.js, Express.js, MSSQL, Git, Redis, and RabbitMQ in a production environment.

Scan My Meal

- Developed a production-ready **MERN stack** food ordering platform with secure **User** and **Admin** portals.
- Designed and implemented **RESTful APIs**, **JWT authentication**, and **role-based authorization** for secure application access.
- Integrated **Stripe** payment gateway, **Cloudinary** image management, and email-based password recovery using Nodemailer.
- Built responsive, reusable React components with **Redux Toolkit** and **Tailwind CSS** for an optimized user experience.
- Implemented product management, search, filtering, cart, profile, and order management modules with MongoDB.
- Deployed the application using **Netlify** (Frontend) and **Render** (Backend) with production environment configuration.

CERTIFICATIONS

- IBM's web development fundamentals
